FARM LABOR DEVELOPMENTS. EMPLOYMENT AND WAGE SUPPLEMENT.

Bureau of Employment Security (Dept. of Labor), Washington, D.C.
Pub Date Dec 67
Note-27p.
EDRS Price MF-$0.25 HC-$1.16
Descriptors-*AGRICULTURAL LABORERS, *AGRICULTURAL PRODUCTION, *EMPLOYMENT STATISTICS, FARM LABOR, FARM LABOR SUPPLY, MIGRANT EMPLOYMENT, SEASONAL EMPLOYMENT, SEASONAL LABOR, *SEASONAL LABORERS, TABLES (DATA), *WAGES

Estimated employment, wage rates, and origin of seasonal hired agricultural workers in selected activities are presented in tabular form. Employment information was obtained by the Bureau of Employment Security from 269 agricultural reporting areas throughout the country. Agricultural workers were defined as those engaged in the production of agricultural crops or livestock and in closely related on-farm activities such as post-harvest storage, sorting, and packing which do not materially change the product from its original form. Seasonal hired workers were defined as those who were hired or assigned to work on any one farm or establishment for less than a continuous 150-day period in the course of a year. In-season farm labor cash-wage rates were tabulated by agricultural reporting area according to crop and activity as either hourly wage rate or piece work rate. (DM)

Contents

	Page
Part A - Estimated employment and origin of seasonal hired agricultural workers, by State and selected agricultural areas.	1
Part B - Wage rates of domestic seasonal farmworkers in selected activities. The rates listed are the most common single rate or range of rates reported on the monthly ES-223 In-season Farm Labor Report or prevailing wage findings reported on the ES-232 Domestic Agricultural Wage Report. Prevailing wage findings are identified by footnotes which indicate the periods covered by wage surveys.	7

The Employment and Wage Supplement is published monthly throughout the year and is released earlier than Farm Labor Developments. Persons receiving one will receive the other. This publication was formerly known as Farm Labor Market Developments.

Part A

ESTIMATED EMPLOYMENT AND ORIGIN OF SEASONAL HIRED AGRICULTURAL WORKERS, BY STATE AND SELECTED AGRICULTURAL REPORTING AREA

Employment information in Part A is based on monthly reports (ES-223) received by the Bureau of Employment Security from its affiliated State agencies. These reports contain estimates of seasonal hired employment in agriculture by crop activity and origin of worker. The employment estimates relate to the 15th of each month.

The Bureau has delineated 269 agricultural reporting areas throughout the country. Reports are received from each area during its agricultural season, from the first through the last monthly period in which 500 or more seasonal hired farmworkers or any foreign workers legally admitted to the United States for temporary farmwork are employed.

Agricultural workers are defined as those engaged in the production of agricultural crops or livestock and in closely related onfarm activities such as postharvest storage, sorting, and packing which do not materially change the product from its original form. (Workers engaged in such activities as canning, freezing, and cotton ginning are excluded.)

Seasonal hired workers are defined as those who are hired or assigned to work on any one farm or establishment for less than a continuous 150-day period in the course of a year. Because the figures cover only seasonal hired workers employed in major agricultural areas reporting to the Bureau, they are not comparable to hired-worker employment data published by the Bureau of Labor Statistics and the Statistical Reporting Service of the U.S. Department of Agriculture, which include year-round hired workers and have nationwide coverage.

1/ Agricultural areas selected for inclusion are those areas in which a peak of at least 8,000 seasonal hired workers or 1,000 foreign workers was reached in 1966 as reported in In-Season Farm Labor Reports, ES-223. Data for each area are omitted during months for which they are not required to submit ES-223 reports. Such reports are not required for periods in which fewer than 500 seasonal farmworkers are employed unless higher employment will be resumed after a "lay-by" period or foreign workers are employed. Figures are preliminary and subject to revision.

2/ The number of contract Puerto Rican workers is a subtotal of interstate migrant workers.

3/ Includes 5,850 Mexicans, 3,042 British West Indians, and 2,916 Canadians.

4/ Includes 3,042 British West Indians and 2,916 Canadians.

5/ Includes 89 British West Indians and 1 Canadian.

6/ All British West Indians.

7/ Includes 2,544 Canadians and 4 British West Indians. All Canadians in Aroostook County.

8/ Includes 95 Canadians and 47 British West Indians.

9/ Includes 223 Canadians and 54 British West Indians.

10/ Includes 909 British West Indians and 10 Canadians.

11/ All Canadians.

12/ Includes 147 British West Indians and 14 Canadians.

13/ All Mexicans.

PART B
IN-SEASON FARM LABOR CASH WAGE RATES
September 1 through September 30, 1967

AGRICULTURAL REPORTING AREA	CROP AND ACTIVITY	RATE AND UNIT
	ALABAMA	
East	Cotton harvest	$ 2.50 cwt.
